

ISHWAR LAHIRE

Python Backend Developer

Manmad, India | +91-9067935149 | ishwarlahire1@gmail.com

LinkedIn: <https://linkedin.com/in/ishwar-lahire> | GitHub: <https://github.com/ishwarlahire>

PROFILE SUMMARY

Python Backend Developer with strong fundamentals in Django, Django REST Framework, PostgreSQL, and REST API development. Hands-on internship experience building scalable backend systems, authentication modules, and database-driven applications. Skilled in Redis, Docker, Git, and production-ready backend architecture.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML, CSS

Libraries & Frameworks: Django, Django REST Framework, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, SQLite3, MongoDB, Redis

Development Tools: Git, GitHub, Postman, VS Code, Render, Docker, Linux

Concepts: MVT Architecture, ORM, OOP, DBMS, Data Structures & Algorithms

Familiar: Node.js, Express.js, Fastify, React.js

Soft Skills: Teamwork, Self-learning, Adaptability, Problem Solving

EXPERIENCE

Software Developer Intern Aug 2025 – Present

The BAAP Company, Sangamner

- Collaborated with a backend team to develop and test 10+ RESTful APIs using Python, Django, and Fastify for client projects.
- Implemented JWT-based authentication and optimized PostgreSQL queries, reducing API response time by 30%.
- Built multi-channel OTP verification system using Redis caching and third-party APIs.
- Followed Agile methodology, used Git/GitHub for version control, and participated in code reviews.

PROJECTS

Job Portal – Full Stack Recruitment Platform

Tech: Python, Django, PostgreSQL, Bootstrap, Render

- Developed end-to-end platform with 3 user roles: Admin, Company, Student for job posting and application
- Implemented secure authentication, resume upload functionality, and search/filter using Django ORM
- Designed relational database with 5+ tables and deployed application on Render

Skill Swap Network – Real-time Skill Exchange Platform

Tech: Python, Django REST Framework, Django Channels, PostgreSQL, Redis, WebSocket

- Re-engineered existing Node.js application in Python/Django to demonstrate backend versatility.
- Architected JWT authentication and 12+ RESTful APIs for user, skill, and swap request management.
- Implemented real-time 1-to-1 chat and scheduling using Django Channels and WebSocket.
- Utilized Redis for caching active users and online status, handling 500+ concurrent connections.

EDUCATION

Master of Computer Applications (SGPA: 9.8)

University of Mysore | 2025 – Present

Bachelor of Business Administration in Computer Applications (CGPA: 7.30)

K. J. Somaiya College of Arts Commerce and Science, Kopergaon | 2022 – 2025

Higher Secondary Certificate (HSC, Science) (Percentages: 65.33%)

Ganadhish Arts Commerce and Science Junior College, Rajapur | 2021 – 2022

Secondary School Certificate (SSC) (Percentages :80.40%)

Janata Madhyamik Vidyalaya Bhalur | 2019 – 2020

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank Certified: Python (Basic) | ID: FC4F66072943 | [HackerRank](#)
- HackerRank Certified: SQL (Basic) | ID: BA4D716573F5 | [HackerRank](#)
- HackerRank: 5 ★ in SQL & Python | 100+ DSA problems solved in Python
